

SERVERS TO STAY RIGHT.

Whether it's a second server needed or more, adding servers to the current setup delivers an office-optimised solution that adds capacity for more storage, support, strength and scalability – enhancing productivity and the business's bottom line. Intel Inside®. Powerful Productivity Outside.

How do our servers help business thrive?

Efficiency
Servers are designed to do a better job of supplying more data storage capability and management, all from one system.

Performance
Supports up to 48% more network users of SQL Server, Exchange Server & SharePoint than the HP blade storage & server solution.

Manageability
Internal enterprise-security software lets users push updates, patches and virus scans from one centralised operating station.

Secure data
Automatically backs up the entire network, from PCs, to external storage devices, even tablets - so critical data is not lost if a machine fails, is lost or stolen.

Powered by Intel® Xeon® processor

PowerEdge™ R430 Rack Server

Peak 2-socket performance for HPC, web tech and infrastructure scale-out.

- 8GB RDIMM, 2400MT/s, Single Rank, x8 Data Width
- 2 x 1.2TB 10K RPM SAS 12Gbps 2.5" Hot-plug Hard Drive
- PERC H730P Integrated RAID Controller, 2GB Cache (Support RAID 0, 1, 5, 10, 50)
- iDRAC8 Enterprise with OpenManage Essentials
- 3Yrs ProSupport: Next Business Day Onsite Service
- No Operating System
